# Quick Start Reference Guide | High Speed Commercial Combination Oven

Refer to Product Safety Manual for Safety Statements. Complete Owner's Manual available online

The oven screen displays menu options. The keypad is used to navigate through onscreen menus.
The icons below will be used throughout this guide to indicate menu navigation.

Attention: Included with the oven is a "Best Practices" cleaning poster. Please display the cleaning poster in a prominent location close to the oven.

COOKING MENUS

Your ovens ships with the cooking screens set to three menu levels.
1. The **MENU CATEGORIES** screen highlights product categories.
2. The **FOOD CATEGORIES** screen features products within the main menu category.
3. The **MENU ITEM** screen features products within the food category screen.
NOTE: The oven can be set to operate with 1, 2, or 3

menu levels see user options for more details.

The **ITEM MENU** breaks the item group menu down further allowing you to input quantities, different food types, etc.

Cooking with Preprogrammed Pads
To cook food using preprogrammed menu items

1. After oven has preheated to the desired temperature. Scroll or press number to choose desired food category from menu.

2. Choose menu item group and press Enter to select.

3. Highlight item you wish to cook.

Note: If there is a line through the menu item, then preheat temperature is different than menu item preset temperature. The control will not allow you to select that item.

4. Open oven door, place food in oven and close door.

5. Press Enter to start cooking process.

6. At end of cooking cycle, oven beeps and displays animation at right to indicate food can be removed.
Note: Menu Items may vary by model.

Quick Start Reference Guide | High Speed Commercial Combination Oven

Using MANUAL COOK (Option 4 has to be set to allow manual cooking. See options section)

Use Manual cooking when a specific time and cooking power levels are desired. It's very useful when you are experimenting with new food items. Maximum cook time is 100 minutes. Microwave, Fan and IR can be set in 11 different power levels between 0-100% at 10% increments.

1. After oven has preheated to desired temperature (200-520°F / 95-270°C), press Manual Cook keypad.

2. Use Scroll Up △ and Scroll Down ▽ keypad to move between cooking elements and time

3. For Stage 1, enter cooking time using the number pads (up to 100 minutes). Press Scroll Down keypad to move to the following cooking element.

   475°
   STAGE 1
   00:08 40 70 50

4. Enter desired microwave power (press 0 (for 0%), 1 (10%), press 5 (50%)… and press 1 twice for full power (100%). Press Scroll Down keypad to move to the following cooking element

   475°
   STAGE 1
   00:08 40 100 100
5. Input desired fan speed using number keypad.

   475°
   STAGE 1
   00:08 40 70 100
6. Enter desired Infrared (IR) power (press 0 (for 0%), 1 (10%), press 5 (50%)… and press 1 twice for full power (100%).

   475°
   STAGE 1
   00:08 40 70 50
7. Repeat steps 2-6 for each cooking stage, if more than one cooking stage is necessary.
8. Place food in oven.

9. Press Start keypad to begin cooking. The display counts down. The food category is displayed and the word Manual is in the display.

10. At end of cooking cycle, oven beeps and displays animation below:
11. Remove food from oven.

Note: To interrupt cooking cycle, open door. To resume cooking, close door and press start.

? How to Save A Manual Cook Program to the Menu

If satisfied with the cooking results achieved from manual cooking, save the manual cook item:

1. To save, press Enter ▷ keypad.

**Note:** Option 5 must be set to save after manual cook.

2. Highlight Menu Category by using Scroll Up △ or Scroll Down ▽ keypad or create new Menu Category name. Press Enter ▷ keypad.

3. Highlight food category by using Scroll Up △ and Scroll Down ▽ keypad to select open menu location.

4. In the Menu Item screen, highlight the location where you wish to add the new name.

5. When new location is highlighted Press Program keypad.

6. Use Number ABC 2 keypads to enter item name. Use Back ◁ keypad to delete any mistakes. This step needs to be repeated for each menu level. See user option 2 for text case options.

CLEAN FILTER

CLEAN FILTERS

Air Filters On Sides
When this message displays, clean the air filter thoroughly. **Cleaning the air filter will not shut off the message.** The message will automatically stop displaying after 24 hours.

Depending on microwave use and environmental conditions, the filter may need to be cleaned more or less frequently. Once the frequency is determined, set the option for the appropriate time frame.

Air filter and vents must be cleaned regularly to prevent overheating of the oven. Refer to Owner's Manual for complete cleaning instructions.
